✂.....

Receipt

Received the assignment from Mr/MsEnrollment
numberof 2nd Semester, 2017 MBA on2017.

Date:

Signature of collector with seal

Course: FINANCIAL MANAGEMENT

(Course Code - 7)

Total Marks: 50

[Assignments are required to be written in your own language, copying in toto from the learning material will carry less score.]

A. Answer the following three questions-

2 X 3=6 marks

Q1: What is dividend?

Q2: What is meant by liquidity?

Q3: What is Net Present Value?

B. Answer the following three questions-

4 X 3=12 marks

Q1: What is Accounting Rate of Return (ARR) method ?

Q2: What is financial leverage?

Q3: What is weighted average cost of capital?

C. Answer the following two questions-

6 X 2=12 marks

Q1: Discuss the different types of investment decisions.

Q2: Discuss the wealth maximization goal of financial management?

D. Answer the following two questions-

10 X 2=20 marks

Q1: Discuss the MM Hypothesis of dividend irrelevance.

Q2: What do you mean by Working Capital. Discuss the various sources of working capital.

COURSE: BUSINESS LAW

(Course Code-8)

Total Marks: 50

[Assignments are required to be written in your own language. Copying in toto from the learning materials will carry less score]

A. Answer the following three questions:

2×3=6 marks

Q1: What you mean by Quasi Contract?

Q2: Mention any two essential features of a bill of exchange.

Q3: Define unfair trade practice.

B. Answer the following three questions:

4×3=12 marks

Q1: Define pledge and bailment.

Q2: Explain the different types of general meetings of shareholders.

Q3: What you understand by performance of a contract.

C. Answer the following two questions:

6×2=12 marks

Q1: Discuss the differences between 'contract of Indemnity' and a 'contract of guarantee.

Q2: Discuss and explain the various rights and privileges of a member in a company.

D. Answer the following two questions:

10×2=20 marks

Q1. "Consideration need not be adequate but it must have some value in the eye of law".
Explain

COURSE: STATISTICS FOR MANAGEMENT

(Course Code-9)

Total Marks: 50

[Assignments are required to be written in your own language. Copying in toto from the learning materials will carry less score]

A. Answer the following three questions: 2×3=6 marks

Q1: What is Bayes' theorem? What is its importance in statistical calculations?

Q2: Explain briefly the terms 'expectation' and 'expected value'.

Q3: What is level of significance?

B. Answer the following three questions: 4×3=12 mark

Q1: Can mutually exclusive events also be independent? Explain with examples.

Q2: What is regression analysis? What are the assumptions in it?

Q3: In a distribution exactly normal, 7 percent of the items are under 35 and 89 percent are under 63. What are the mean and standard deviation of the distribution?

C. Answer the following two questions: 6×2=12 marks

Q1: To test the goodness of a coin, it is tossed 5 times. It is considered a bad coin if more than 4 heads show up. (a) What is the probability of Type I error? (b) If the probability of a head is 0.2. What is the probability of Type II error?

Q2: In a statistics class, the probability that a student picked up at random comes from a two parent family is 0.65, and the probability that he will fail the exam is 0.20. What is the probability that such a randomly selected student will be a low achiever given that he comes from a two parent family?

D. Answer the following two questions: 10×2=20 marks

Q1: From the following regression equations : $8X-10Y=-66$, $40X-18Y=214$

- Find
- (a) average value of X and Y.
 - (b) correlation coefficient between the two variables X and Y.
 - (c) standard deviation of Y.

Q2: An institution dealing with pension funds is interested in buying a large block of stock of Azumi Business Enterprises (ABE). The president of the institution has noted down the dividends paid out on common stock shares for the last ten years. The data is presented as follows :

Year	Dividends(\$)

1986	3.00
1987	2.80
1988	3.00
1989	2.50
1990	2.10
1991	1.60
1992	2.00
1993	1.10
1994	1.00

- (a) Plot the data.
- (b) Determine the value of regression of regression coefficients.
- (c) Estimate the dividend expected in 1995.
- (d) Calculate the points on the trend line for the years 1987 and 1991 and plot the trend line.

Total Marks: 50

[Assignments are required to be written in your own language. Copying in toto from the learning Materials will carry less score]

A. Answer the following three questions:

2 x3= 6 marks

Q1: What is Priority sequencing?

Q2: What is Production Planning?

Q3: What is Yield Management?

B. Answer the following three questions:

4 x 3= 12 marks

Q1:What are the prerequisites inputs for MRP?

Q2:What is Quality Assurance?

Q3:What is the ABC analysis of inventory control?

C. Answer the following two questions:

6 x 2= 12marks

Q1:Highlight the significance of Control Charts.

Q2:What is Economic Order Quantity? Discuss.

D. Answer the following two questions:

10 x 2= 20 marks

Q1:What is method study? Explain the procedure of method study.

Q2:Discuss different types of layout and explain with example which type of layout is suitable for what type of organisation.

Total Marks: 50

[Assignments are required to be written in your own language. Copying in toto from the learning materials will carry less score]

Answer the following three questions:

2×3=6 marks

Q1: Define Research?

Q2: What do you understand by secondary data?

Q3: What is a questionnaire?

B. Answer the following three questions:

4×3=12 marks

Q1: Write down the four types of scale

Q2: Discuss any four types of Research.

Q3: Discuss the four types of variables related to experimental research.

C. Answer the following two questions:

6×2=12 marks

Q1: What do you understand by Descriptive Research also discuss the steps followed while designing the descriptive research?

Q2: What do you understand by Factor Analysis and also discuss the applications of Factor Analysis.

D. Answer the following two questions:

10×2=20 marks

Q1. What do you understand by coding of data? Discuss the importance of coding and also discuss how data can be classified.

Q2. What do you understand by schedule? Discuss the various types of schedules. Also mention merits and demerits of schedule method.

COURSE: BUSINESS ENVIRONMENT

(Course Code-12)

Total Marks: 50

[Assignments are required to be written in your own language. Copying in toto from the learning materials will carry less score]

A. Answer the following questions within 50 words. (3x2=6)

- Q1. What is Regressive Tax?
- Q2. What is MRTP Act?
- Q3. What is Business Environment?

B. Answer the following question within 75 words (4x3=12)

- Q1. Explain the methods employed in the measurement of National Income
- Q2. .What do you understand by Foreign Exchange Management (FEMA)
- Q3. Discuss any two forms of Foreign Investment.

C. Answer the following question within 150 words (2x6=12)

- Q1. Write the features of a secondary market.
- Q2. Discuss the merits and demerits of Direct tax.

D. Answer the following question within 300 words (2x10=20)

- Q1. Discuss and explain Money Market and Capital Market
- Q2. Review the effects of WTO on Indian economy.
